Europe has had a generous distribution of horrors, famine, pestilence, fires, under the nefarious convict lease system and to refuse to work with the men who were leased. But this was the right to protest peaceably, though firmly. When the free miners did otherwise—when they resisted and fired wise—when the fired wise—when the fired wise—when they resisted and fired wise—when the fired wise—when they received they they could do with a bit, they could do with preserve that condition of law and order without which no State can exist, they became rebels in fact and it is useless to call them anything else in name.

The men engaged in this revolt have committed so glaring a wrong that they have for the time being buried the question of their own rights. The pre-eminent issue in Tennessee to-day is the suppression of armed rebellion. When peace and the reign of law are re. the time comes. stored the State may turn to deal as its best wisdom may dictate with the question of cheap labor, out of which the trouble spraug.

MRS. CLEVELAND AND THE ENGINE. In the morning newspaper despatches from Buzzard's Bay is a thrilling account of Mrs. CLEVELAND'S DATTOW escape from a railroad accident. One second more and an engine would have rushed upon her and torn her to pieces as she was crossing the track.

Do you believe it? Of course not. Mrs. CLEVELAND's loveliness is itself an emphatic and ecstatic denial of the story. No locomotive in the world that had the least spark of galiantry would even ruffle the feelings of this protty and popular
